

What Would You Like?

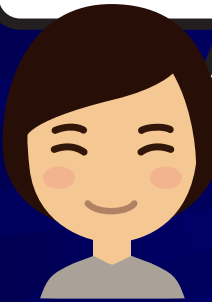

I would like to assist with volunteering and fundraising activities.

I would like initiatives for LGBT or women or mature students to be promoted.

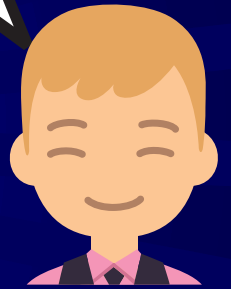

I would like to set up a club, society or sports group at College.

**BE
PART OF THE
STUDENTS'
ASSOCIATION**

I would like more support for student parents and care experience students.

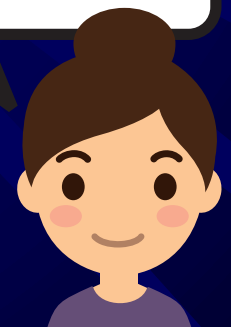

I would like forums and focus groups that listen to, and act upon, the student voice.

The Students' Association is run by students for students, so get the best out of it by making the most of it.

I would like consideration given to international students and apprentice's.
